CEE-TEE-Co COMBINATION PLIERS

To meet a demand for a guaranteed tool at a low price. The CEE-TEE-Co is a high grade tool, drop-forged from fifty carbon open-hearth steel, but machine finished instead of hand finished. Nickel-plate.

The machine finish does not give the high polish of the hand work, but makes a very satisfactory and rustproof finish for all around work.

Packed one in a box.

No.	Size In.	Cap. In.	Shipping Wt. Oz.	Contains Boxes	Carton Wt. Lbs.	List Price per Dozen

MOTOR KIT COMBINATION PLIERS

The Motor Kit Plier is a high grade hand finished tool.

It is made to answer the requirements of the best and most exacting trade.

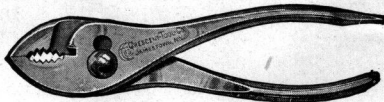

The handles are drop forged from fifty carbon open hearth steel, hardened and oil drawn. Bolt and nut are turned from the solid bars of cold rolled steel and case hardened. All holes are drilled and teeth milled. Nickel finish.

Has checkerdot handles, wire cutter and screw driver.

Packed one in a box.

Under each tool is a tag giving the number, size and retail price of the tool. The sketch below shows the manner in which the tools are fastened to the case.

The small wing nut is easy to unscrew, allowing the tool to be removed for inspection by the customer. The tools may be sold directly from the board and replaced out of stock.

The case is made of oak, beautifully finished. It is of dust proof construction and equipped with a lock which prevents the stealing of tools. The glass in the door is securely fastened in place.

The WC1 case is also adaptable to window display. It makes an excellent center piece for a general tool window. And the splendid assortment it shows cannot help but attract the attention of any tool user who sees it.

The WC1 may be had at the regular price of the tools displayed in it. It will add to the appearance of any store and stimulate the sale of Crescent Tools considerably. Shipping weight, packed, 106 pounds.

Size 24½ x 48½ inches 2¾ inches deep.

Drop forged from special steel. Full polished finish. Combination plier and wrench. Takes the place of "S" end, monkey and pipe wrenches. The jaws parallel on all nuts up to $\frac{3}{4}$ inch. Will pull cotter pins.

Has pipe wrench grip. Size $7\frac{1}{2}$ inches. Packed 6 in box with 9x12 display easel.

No. 444 Giant Grip per dozen **\$15.75**

DIAGONAL CUTTING PLIER

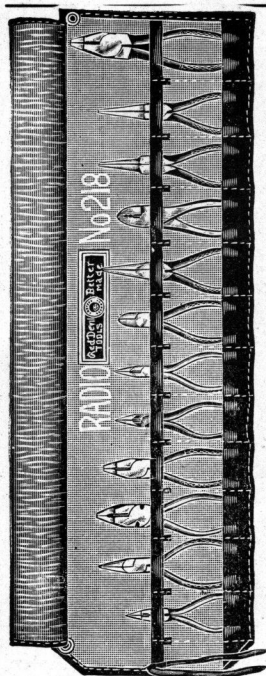

This plier is entirely new. By looking at the cut, you will see that in addition to the regular cutting edges, the plier has a nose for holding and gripping objects. This gives the 642 a wider range of usefulness. The cutting edges are hand ground and cut along their entire length. Before the plier is put in the box, it is tested to see that it will cut properly.

The handles are extra heavy and strong, giving a good grip.

Number 642 is made only in the six inch size and full polished finish.

Weight, 4 ounces. Packed one in a box.
No. 642**Retail Price, \$15.00 Doz.**

No. 349 List doz. \$60.00 \$70.00
1 3/4" 2"
1 in box. Weight each 2 1/4 lbs.

DEALER'S SERVICE

Catalog Pages, electrotypes, etc., can be obtained for items in the Smith and Hemenway line just the same as in the Crescent Line.

The sale of these tools is backed by an advertising campaign which takes in trade papers, consumer magazines, direct mail items at frequent intervals, window cards, etc. This advertising runs into thousands of dollars each year. It will pay you to tie up with it.

The sale of Crescent and Smith and Hemenway Tools is guaranteed. We do not want to load up your shelves with merchandise that you cannot sell. But we want every jobber and dealer handling the line to have enough stock to meet requirements. The usual rule of shipping orders of over one hundred pounds with freight prepaid will apply to the Smith and Hemenway Tools as well as to the Crescent line.

In most cases, orders will be shipped the same day or the day following receipt. A stock of both lines of tools is maintained at Jamestown so that your orders will not be delayed.
